An experienced Full Stack Software Engineer with background in building and maintaining server database applications, as well as client-side rendering for intuitive and responsive operating systems. Proven analytical and problem -solving abilities, supported by intensive training and verifiable certifications in software engineering and server-side computer sciences. Versatile working habits suited for either team- oriented or remote work conditions. Established track record for pursuing new challenges, including those involving opportunities to learn new technologies, languages, coding libraries and frameworks.

## Work History

2022-05 -  
Current

### Associate Software Engineer

*Turnberry Solutions, St. Louis, MO*

- Team is tasked with the responsibility of developing and refining Pay with Points and Pay with Rewards features which offers users redemption rewards for eligible purchases.
- Make daily collaborative effort with product managers to designate top priority stories that can be managed and completed within current or upcoming sprints and iterations.
- Granted access to company repositories to modify applications and files as needed in order to optimize configuration and functionality, as well as eliminate any conflicting or obsolete code.
- Discuss best practices with team members when necessary, and commit to bi-weekly elaborations on anemic design stories.

2020-02 -  
Current

### Licensed Real Estate Sales Associate

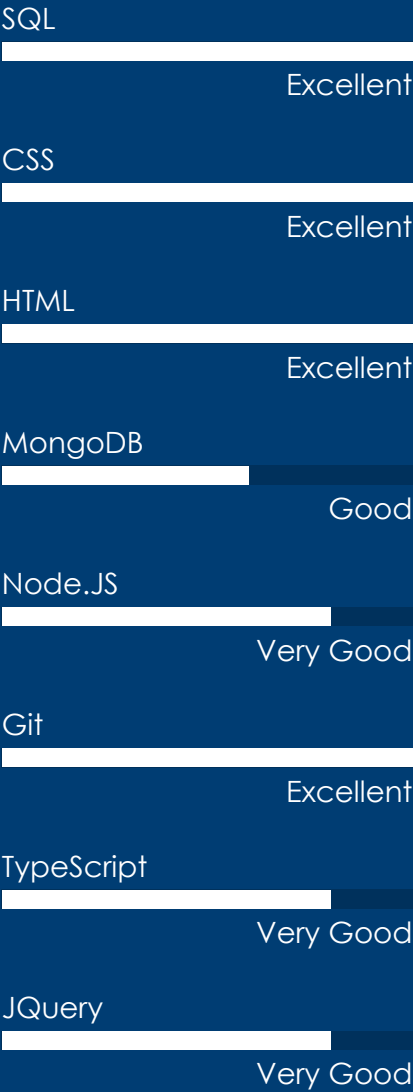

*William Raveis Real Estate Inc., Avon, CT*

- Manage a personal CRM database of customers and clients.
- Marketing for social media-centric engagement, reaching hundreds of active users monthly.
- Prospecting inventory for seller interest, market data, and inquiring customers planning to buy or rent.

2021-11 -  
2022-04

### Instructional Coach

*The Coder School, Glastonbury, CT*

- Provide support to students who are learning new software frameworks and languages.
- Relay notes of progress to both parents and internal administration.
- Refine students' skills in languages such as Python, Java, JavaScript, HTML, CSS, etc.

2019-07 -  
2020-01

Licensed Real Estate Sales Associate

Keller Williams Realty, Glastonbury, CT

- Consultative experience with sellers inquiring about the marketability of their homes relative to existing inventory and proximity.
- Managed client expectations proceeding closings, as well as the technical diligence required to research relevant property data for customers.
- Closed over \$200,000 of volume within the first three months of licensure. Effectively closed home purchases expediently in a six-week timeframe.
